CHARLESTON Data

Get the Facts

over 30 years of sales data and statistics
regarding used industrial equipment

Charleston Data Group, a division of Charleston Services, Inc., provides authoritative detailed information and statistics on used industrial equipment. Over the past 30 years, Charleston Services, Inc., has collected sale data on industrial equipment sold at auction. In addition to sales at auction, Charleston Data Group has recorded facts and figures regarding brokerage sales, as well as new prices. All of these statistics have been compiled into an easy to use database and made available to the general public. The data contained herein is some of the same information used by the Charleston Valuation Group during their development of market value, market value under orderly liquidation conditions, and market value under forced liquidation appraisal reports for their clientele.

Financial service companies, manufacturers, appraisers, and insurers trust and rely upon Charleston Data to provide invaluable information to make educated decisions when researching, selling, insuring, and financing used equipment.

Charleston Data helps you make decisions with confidence
